Street Travelling Receives 100 per cent Co-operation

The citizens in general and the council in particular welcome the opportunity of thanking the farmers, merchants, truckers, P. H. I., and any one else who may have made the travelling of our streets possible during the recent example of co-operation that I have ever seen and gone to show what can be done if we work together. The council is pleased beyond words with the result, we would like to thank each and everyone personally, but as we could not meet more, so kindly accept this as an expression of our sincere thanks.

A few articles such as chains, shovels etc. have been sent up to you have some articles of this nature which you kindly leave at the Imperial oil and we will try and get them back in the proper place. Also a set of flares were found and may be had at the Imperial oil.

Mrs. J. A. Moir Captures 3rd In Annual Tilling Match

Contestants in the second annual tiller match were highly lauded on Thursday when the fifteen contestants turned in exceptional performances before a gathering of several hundred. History was registered in tiller matches when Mrs. John Moir was placed third in class one. It was the first time in Western Canada a woman has contested in a tiller match. Her machine was handled by a Wilby trap.

In class one, 11 classes and under, A. Hilder was placed first and was awarded the Imperial Oil Co. trophy and \$35 cash. Also Brenda was named second and received \$25 cash, and Mrs. John Moir in third position won \$15 cash.

In class two, 11 classes and over, Benny Maers was named first prize of the British American Oil Co. trophy and \$35. C. Cunningham was second and was awarded \$25, and B. L. Hansen was third, winning \$15. Benny Maers was named the grand champion and was presented with The Royal Bank trophy.

The tiller match was sponsored by the Drumheller Agricultural Society, Alberta department of agriculture and the Three Hills board of trade. The judges were Charles Cheskin and C. H. Archemon of Vermilion.

The committee was composed of Ray Duns, chairman; J. Long, Wm. Keater, Ray Davidson, John G. Unbrink and W. D. Genselman. The local board of trade entertained all contestants at a banquet provided for by President J. L. Howe, who also presented the prizes. A. C. Greville, president of Drumheller district agricultural society, addressed the gathering as did district agricultural N. F. Bell of Drumheller.

Three Hills school internets with Trochu in the evening and a full of guests attended in the Baptist Church, Trochu, June 2, at which Violet Ruggles, daughter of Mr. and Mrs. Reginald Ruggles of Trochu, was united in marriage with Lawrence Ralph Hilder, son of Mrs. and Mrs. Otto Hilder of Trochu.

Requests of late spring flowers and ferns formed a floral setting for the ceremony which was performed by Rev. R. H. Sepk.

A violin solo, "Prelude No. 1" was rendered by Miss Rutha Ruggles and Miss Violet. They played the wedding march.

The bride, who was given in marriage by her father, wore a long dress of white satin featuring a full skirt, a high neckline and long sleeves. Her hair was styled in waves and she wore a long veil.

Canada's great Leader

LOUIS ST. LAURENT Prime Minister of Canada

At the polls on June 27 the voter must ask himself, ahead of anything else, who should be head of the government.

In Louis St. Laurent, Canada has found a great national leader.

That he had high abilities of the mind was proved by his career in law. That he had wisdom in cabinet, unique gifts in parliamentary debate and a quick grasp of large affairs became clear as he was entered the Government. In international affairs as one of the original advisers of the Atlantic Pact, he made himself a world figure who spoke out as no Canadian before him, in the councils of the nation.

He also revealed an understanding of ordinary people, because he is

one of them.

This warm and essentially simple human being is the real St. Laurent, the product of the small town, of humble beginnings, hard work, a big family and the friendliness of country neighbors.

In blood, language and instinct he combines the qualities of two great races.

To the voter it is equally important that St. Laurent is the leader of a truly national party, with proved strength from coast to coast, the only party which can hope to form a stable government after the election. His character, his ability and his achievements have made him the leader of all the Canadian people.

Super Salesmanship!

During the war when goods were in short supply, little salesmanship was required to sell our agricultural products.

Yet, by selling under world prices, the Liberal government has cost the Canadian farmer an estimated two billion dollars!

At a time when they should have been looking to the future and making long-term contracts for our food products, the Liberal government were contracting with the United Kingdom, our best customer, for only one and two year periods.

What has been the Result?

We have lost most of our markets! Britain has contracts with other countries, many of them behind the Iron Curtain, for periods up to ten years. Excluding the wheat contract, we have only three contracts in effect at the present time!

FOR THE FARMER'S PROTECTION

The Progressive Conservative Party Will:

- Restore the Canadian Wheat Board Act to its original purpose . . . a marketing agency for wheat producers
- Extend the Wheat Board's powers to include handling of coarse grains on a voluntary basis
- Take aggressive and immediate action to regain lost markets and develop new ones
- Include Representatives from all farmer's organizations on all Boards dealing with agricultural products
- Achieve security of export markets through foreign-trade negotiations
- Enact legislation based on the principle of democratic producer control.

2,4-D For Perennial Weeds

With the extensive perennial weed problem that exists in the West, it is not surprising that the use of 2,4-D has increased in the control of perennial weeds. The use of 2,4-D in the control of perennial weeds is not new. It has been used for many years and has been found to be one of the most effective and economical means of controlling perennial weeds in prairie grass fields.

SOCIAL SECURITY—The Liberals have put through all three crucial bills: Old Age Pensions, Pensions for the Blind, Family Allowances, Hospital and Health Grants, Unemployment Insurance, Floor Prices under farm products. The Liberal aim is nation-wide contributory old age pensions and contributory health insurance.

NATIONAL SECURITY—The Atlantic Pact against aggression and war has the complete support of all Liberals. Mr. Men. Louis St. Laurent was one of its first and strongest advocates. ...well
practically unanimous

YOU CAN still find people who "don't believe in banks"... who keep their cash in old coffee pots, or hide it in the woods, or carry it around.

But most folk nowadays keep their money in bank accounts. They can get it whenever they want it; and they can pay their bills by cheque. Canadians have more than seven million such deposit accounts. In terms of Canada's adult population, that makes it practically unanimous.

The banks, in turn, know they must earn this confidence by giving you the best service they know how.

Today you can take your account to any bank you choose. And what is in your bank book is strictly between you and your bank. It is your own private business.

Notes - Hutchinsons

Recent Pans, Ferns, Carnations and Sweet Williams formed a floral setting in the Knox United Church, Three Hills, on Saturday, June 25, when Florence Maude, youngest daughter of Mr. and Mrs. A. M. Hutchinson of Three Hills became the bride of Mr. Sheldon George Nels, son of Mr. and Mrs. J. Nels of Edworthy. Rev. Wm. J. Hudson performed the marriage ceremony.

The bride who was given in marriage by her father, wore a long dress of white sheer with sweetheart neckline and long sleeves. Her bridal veil of silk net was held in place by a wreath of silk daisies and she carried a bouquet of red roses. Her only jewelry was a simple strand of pearls, a gift of the groom.

Preceding the bride was Mrs. L. M. Neil, sister of the bride who was matron of honor, wearing a gown of blue and white. She wore a hair style of short, curled, dotted rayon bordered with a nodding lace from which fell a shoulder length veil. She carried a bouquet of pink carnations. The bridesmaids, Miss Iry Nels, sister of the groom, wore a gown of pink sheer with square neckline. Her head dress was similar to that of the matron of honor and she carried a bouquet of pink carnations. The flower girls, twin nieces of the bride, wore dressed alike in pink organza trimmed with white satin ruffles. They both carried bouquets of sweet peas and pink carnations.

Mr. Frank Hutchinson, twin brother of the bride, was groomsmen. The guests were escorted by Mr. John Hutchinson and Mr. Gustav Nels, brothers of the bride and groom respectively.

Mrs. Vera Kester of Three Hills played the wedding music. For her daughter's wedding, Mrs. Hutchinson chose a blue jersey dress and wore a carriage of white carnations.

A reception was held at the home of the bride's parents. The table was decorated with a three tiered wedding cake, six acres of spring flowers. The toast to the bride was proposed by the groom.

The happy couple motored to Banff, Jasper and Lake Louise. Following their honeymoon they will take up residence in Calgary.

But all for each and each for all.

CHICAGO—Treatment of chronic lymphatic leukemia with radioactive phosphorus and X-rays was termed "satisfactory" by three doctors.

This form of leukemia or cancer of the blood-forming tissue—develops slowly in contrast to the fast progress of acute leukemia.

Reporting on treatment of 100 patients, the doctors wrote in the current journal of the American Medical Association that one-third of those were alive after five years of treatment.

LONDON. A Soviet scientist has established that there are at least three kinds of plant life on the planet Mars.

Microscopic, carbon-dioxide-breathing, anaerobic organisms, the first of which are called *Thiobacillus*, are the study of plant life on heavenly bodies other than earth.

Dr. Vladimir V. Ivanov, the Soviet scientist, has ascertained that there are pollens on Mars which retain the green color and only in the summer do they turn to the color.

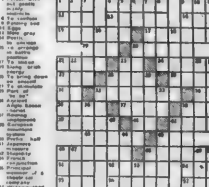

It has thus become clear that there are plants on Mars and only of different kinds, but a vigorous soil.

In view of the many strange things that have been discovered on Mars, it is therefore reasonable to think of the southern latitudes as the home of plant colonies.

The Martian vegetation, according to the Soviet scientist, does not have a root system, as plants on earth do.

To Make Marriage Easier In Ontario

TORONTO—There is some talk in Ontario of making it easier to get a divorce. The Ontario government is considering a bill to make it easier to get a divorce. The bill would allow a person to get a divorce if they have been married for at least one year and if they are living apart for at least one year. OUR COMPLETE SHORT STORY

A Girl Must Live!

By C. Y. TENCH

It was a dark, stormy night when the first of the three girls came to the door. She was wet and shivering, and her face was pale. She looked up at the man who stood in the doorway, and her eyes were filled with tears. "Please, please," she begged, "let me in. I'm so cold. I'm so scared."

The man looked at her for a moment, and then he opened the door. She came in, and he closed the door behind her. She looked at him, and he looked at her. They both knew that they were in a bad way. The man was a doctor, and the woman was a nurse. They were both in the hospital, and they were both in the same room. They were both in the same room, and they were both in the same room.

Health Survey Committee Hold Public Meeting Here

Of particular interest to residents of the district was the Public Meeting held by the Alberta Health Survey Committee in the Lika Hall at 3:00 p.m. Wednesday, October 12th.

This meeting has been organized for the purpose of bringing to your attention and consideration the Health Survey Committee the health needs of our district and the requirements of medical practitioners, dentists, etc.

Any individual or organization may at the meeting express their opinion or better still put these opinions in writing and send them to the committee.

A Health Unit here would mean a lot to most of us. Think it over. Plan to be there!

A Letter to the Farm People

Dear Farm People—

I am going to take a few minutes from these busy days to send greetings to each and every year of you from the F.C.A. Board of District 10.

Our organization continues to grow and at the present time we have in Dist. 10, 49 farms with a membership of 1232. The Western livestock has a substantial increase in its share over previous years.

The F.U.A. continues to work successfully on behalf of our farmers. And the Cerebral Palsy Agreement is just one of the many things on the Agenda. If we look back in history we find that under a charter laid before Parliament in 1880 the C.P.R. received something over 100 miles of

track that had been completed by the Government, a grant of \$50,000,000 and 25,000,000 acres of land along the route as well as exemption from taxes and import duties on materials for a long time. In 1940 the C.P.R. received a grant of \$1,000,000 to build a railroad through the Cerebral Palsy Farm from Alberta to Western B.C. in return for the grant the C.P.R. agreed to not freight rates on grain and other commodities and to maintain the established rates to perpetuity. During world war I the agreement was abrogated and higher rates charged. Our farm organization resisted by some Federal members from Western Canada waged a strenuous battle to have these rates restored and were successful in this in 1922. Again we are called on to protect the action of the C.P.R. in making that the export rates on grain be set by the Dominion Government. The final setting of the Commission will be held in November and it is hoped every farmer in the F.C.A. organization as well as every farmer will show the Government with telegrams and letters to let them know that western farmers feel in regard to this situation cropping up of

Swallow

The High School Students Union held a Halloween party in the High school Wednesday evening October 27. The Harrow Chamber was the highlight of the evening and only the strong in heart could take it. Those who did not go in costume paid the penalty of going through it, though a new costume was thought for the fun of it. Other games were played and a good time was had by all. Lunch was served.

A good was held Thursday and Friday, Oct. 27 and 28 in aid of the Southern Alberta Teachers' Conference in Calgary.

Mr. R. Ward, principal of Arnes School, will be guest speaker at the next meeting of the "Home and Heifer" on Friday Nov. 4.

Mr. and Mrs. John Reuter Carlson are the proud parents of a baby daughter on Oct. 22. Mrs. Reuter is the former Miss Elvora Goss of Swallow. They have rented a home in Swallow for the winter.

The Arnes Swallow Young People held a meeting at Arnes Sunday evening, Oct. 30. It was decided to include handbills in their program—principally health work and education.

Big scores have been at work on the spring risk and skating rink. All the members have been at the skating rink on the evening.

The Ladies Bridge Club have resumed meetings for the season.

Settlement of Constituency Boundaries to be Heard

Elsewhere in this issue may be seen, notice of a public hearing to be held in Didsbury regarding the redistribution of legislative seats.

The more fact that action has been taken by the Hon. Lucien Maynard in evidence proving the value of our Board of Trade in getting what they get after.

Their proposal is to form a new constituency running North and South along this line rather than in the present East-West fashion. This proposal is supported now stronger than ever since it has been known that the Drumheller constituency is to be enlarged by the redistribution committee, and that the proposed Western boundary of the constituency will extend to within six miles of the Town of Three Hills. This would leave us in the extreme North-East corner of an already unsuitable setup. It must be prevented.

Bear in mind the importance of the hearing. We need local representation in our provincial government. This is an opportunity to get something we have needed for years.

Plenty of opposition can be expected from the other line, we must support from every interested party. As Mayor E.P. Foster puts it, "This is the Battle Field."

Get behind the Board of Trade in their efforts at Didsbury on November 16.

Science is playing an increasingly important role in Canada's new Army. Its heavy and powerful, but amazingly simple, tank equipment provides a wealth in a few feet exactly where the target is and will be. The greatest trick is to the target, but with accuracy by instruments.

Training men in the use of modern military equipment is a major responsibility in Canada's new Army. Thousands of young men are attending every day of the week in the country, specializing in electronics, radio, radio and telephone. In addition, these are equipped for their, drivers, mechanics and more other tasks.

New higher pay, good food and quarters, makes training and the opportunity for advancement make the Canadian Army Active Force one of the most attractive centers open to young men today. You are eligible, if you are 17 or over and can meet Army requirements. Visit your nearest recruiting office for full details. Bring certificates of birth and education with you.

I just can't save money!

That's what I used to say and I was true. Sometimes I'd dream of the day when I'd have time and money to do all the things I wanted to do, but I'd be so busy I couldn't do anything about it. I'd be so busy I couldn't do anything about it. I'd be so busy I couldn't do anything about it.

LOTS OF NERVE NEEDED—Here's one way to build a timber. Three wire fences, join them together, place planks down the center, swing across the river. All you need to cross is wire fastidness and a nerve. Pictured here is E. Fry, crossing the North River at North Oak. The water is 20 feet deep.

HOW CAN HE BEAT IT?—According to this picture, dough can be beautiful too, as doubt about it? Many of you have doubted, I am sure, the heavy work of some art, but have you thought of enjoying the job, that can give you great pleasure and old ideas the joy of making them from dough? There is no room to do without dough. Missions in your home during summer is great. The dough costs practically nothing, and for sheer beauty this type of work is unrivaled. A combination of real recreation and accomplishment that requires little or no instruction. About all that is required is a passion for flowers, some dough, a little paint and an artistic inclination.

CHEVROLET

HARD-WORKING, MONEY-SAVING TRUCKS FOR ALL JOBS

With increased gas and oil prices to offset, truckmen must insist on economy more than ever before. And economy is what Chevrolet is famous for. Chevrolet trucks give more trouble-free miles of money-making operation than any other truck on the road.

Solve your trucking problems to your Chevrolet dealer. Whether you operate one truck or a fleet of them, he can show you Chevrolet's designed and built to stay on the job probably, Ford, stake, light, medium or heavy-duty, just what you need in Chevrolet.
